

Integrates with OnSite Companion

INSPECTION MANAGEMENT

QUALITY ASSURANCE AND SAFETY MANAGEMENT INSPECTION TOOL

Create custom inspections in order to monitor and ensure the quality of your construction and processes. Use locations and rooms to organise easy to complete checklists with the ability to enter in defects or problems on the spot by taking photos, notes and conveniently generate defects in OnSite Companion.

- Q Guides your supervisor**, quality control; or WHS & E people through the relevant questions based by room and location
- Q It is a fully customisable system** to suit your quality assurance program. This also includes you WHS & E
- Q All communication** and defects controlled in OnSite Companion
- Q Simple interface that allows questions to be answered** and photos taken directly into the program
- Q Seamlessly integrates with OnSite Companion**, can be run by a supervisor or third party inspector
- Q Software that allows you** to go from a paper-based system to an electronic system

CANI

Provide Continuous and never-ending improvement in your Quality Assurance and WHS & E

INSPECTIONS

Have all your inspections in one place and communicated through the same system
